## Robust IP 65 handheld enclosures

These high performance plastic enclosures have been tailor made to meet the needs of mobile data collection devices used indoor or outdoor.

- ergonomic profile for comfortable holding and operating
- robust with a high protection class up to IP65 (sealing kit accessory)
- designed for installing standard LCD modules; accessory acrylic display windows protect the display area and guarantee a high protection class
- plain surfaces for interfaces
- three sizes in two colours
- sizes S and L with/without a battery compartment
- size M with battery compartment lid only - battery holders ordered separately
- recessed operating area for protecting the membrane keypad
- internal fastening pillars for PCBs
- tilt foot bar provides ergonomic canting for desktop applications (accessory)
- wall suspension element for secure storage of the enclosure (accessory)
- rubber protector absorbs impacts and protects surfaces (acc. size L)

## Designer Statement

"The DATEC-MOBIL-BOX is a real space marvel. If you include the DATEC-POCKET-BOX product line, you have six housing sizes at your disposal that are matched to commercially available components and allow the interior to be used efficiently right down to the last corner. Each of these mobile enclosures can be described as the epitome of space utilisation, in conjunction with the functionality of standard display, operating panel, interfaces and power supply. When it comes to compact and mobile products, this enclosure design is second to none."

Martin Nußberger, polyform Industrie Design
